

It's Not Easy To Clean Something This Dirty.

Silk can be sophisticated. It can be exotic. It can even be a little naughty. But one thing it can't be is carelessly cleaned. Let the wrong hands come in contact, and you'll never want to be seen in it again (even for just a few moments). The fabric care experts at Morellis have an intimate knowledge of how to handle silk and other fine fabrics – and unlike most cleaners, we don't charge extra for that personal touch. Entrust your special moments to Morellis.
